Crystal City ISD Migrates to Atrium and Booktracks

Crystal City ISD – located in Crystal City, Texas and composed of 5 schools – recently went live with Atrium for their library and Booktracks for their textbooks. The schools were so excited to move to a Web-based software program that offered access to the library catalog from home. The ability to use the report module to create customized reports was also a feature the librarians love.

Accountability was most important when the system purchased Booktracks. The schools are now able to track the textbooks and notify teachers and parents of which textbooks students and teachers have checked out.

Book Systems Inc. provides affordable feature-rich library and textbook software that delivers solutions to libraries and schools of all sizes. Our software is suited to fit the needs of librarians in a technology-driven world, while still being easy to learn and user-friendly. Atrium offers a graphical circulation desk, quick cataloging, MARC editing, analysis, easy-to-create reports, and theme choices. There are also additional modules available for serials and acquisitions. Our software provides more features and demands fewer resources. Book Systems is dedicated to quality and customer satisfaction and has implemented library automation solutions in thousands of libraries around the world. The company's philosophy is very simple: create quality products; test them with input and direction from librarians in the field, and back them up with renowned customer service and support. Further information is available at www.booksys.com.
