

Atrium® for Publics

Feature-rich, integrated library system!

Atrium, our 100% Web-based system, is an integrated library automation system built on a foundation of over twenty years experience in library technology and feedback from more than 10,000 customers.

Atrium has many features including:

- ◆ Cataloging, circulation, off-line circulation, inventory, custom reports, and Web accessible OPAC
- ◆ Quick Cataloging for downloading free MARC records from LOC and other libraries
- ◆ Empowering patrons through patron managed renewals, reserves, watch lists, etc.
- ◆ Flexible OPAC Themes including over 96 Main and KidZviZ options
- ◆ Centralized or distributed information infrastructure
- ◆ Stress-free cloud technology avoids costly hosting and provides a zero maintenance environment

Most importantly, you'll receive the best support in the business, hands down. For us, it really is all about you. You have choices and we hope you will give us the opportunity to earn **YOUR** trust.

Information at Your Fingertips

Whether your patrons are searching the library card catalog or library staff members are performing administrative tasks, access to Atrium is fast and easy from any computer or mobile device with Internet connectivity. Atrium brings your library resources right to your fingertips.

Atrium Mobile Apps

Access to Your Library On the GO

Atrium on the Go

Optimized for patrons to access and search the library catalog from their favorite mobile device.

Atrium Mobile Interface (AMI)

Designed for library staff to perform circulation transactions via a mobile device.

Hosting Solutions

Stress-Free Set-Up, Hosting, and Maintenance

Our ASP hosted service delivers stress-free "cloud computing" technology, reduces IT costs, and provides "worry free" maintenance for your Atrium system.

- ◆ Eliminates the need for a dedicated server
- ◆ Provides secure 24/7 access
- ◆ Includes automated backup services

Atrium® Features (brief)

Atrium sets the standard with core library functions and great features for managing your collection, as well as giving your patrons access to the information they need. Below are just a few highlights that Atrium has to offer:

Online Public Access Catalog

A refreshing new look for your online catalog, plus many other features:

- ◆ Over 96 pre-designed eye-catching themes with 9 layout options for promoting News and Messages, What’s Hot, What’s New, What’s Coming, and more
- ◆ Intuitive searching with predicative “search as you type” and “Did you mean?” functionality
- ◆ Integration of eBook and eAudio digital content providers like Axis360, MackinVIA, OneClick Digital, OverDrive, and many others

 Community search and spotlight features designed to promote clubs, groups, events, workshops happening in your community

- ◆ KidZviZ OPAC interface with attention-grabbing and age-appropriate search options for young readers
- ◆ Patron login with options for account management, reserves/renewals, online payment of fees/fines, and managing bookbags and watch lists
- ◆ Social media integration and patron rating/review features
- ◆ Online patron registration
- ◆ Atrium On-the-Go mobile apps for patron access

Library Administrative Features

Unlimited circulation/staff computer and user access with permission based settings for library functions:

- ◆ Configurable Librarian Desktop interface with intuitive toolbar, menu, and shortcut navigation
- ◆ Quick Cataloging (built-in Z39.50 client) provides instant access to over 20 million free USMARC records
- ◆ A variety of options for printing barcodes, spine/pocket labels, and donor bookplates
- ◆ Automatic generation of patron notifications via email or text
- ◆ Patron responsibility features that link family members together for accountability
- ◆ Reclassify tools for applying bulk changes to catalog or patron data
- ◆ Inventory and circulation management mobile apps included
- ◆ Offline circulation capabilities
- ◆ Context sensitive help, PDF guides, and online tutorials
- ◆ SIP2, NCIP, and LDAP support included at no charge

Impressive Customized Reporting Capability

Atrium enhances your reporting capabilities in as many ways as you can imagine:

- ◆ Easily generate pre-configured reports
- ◆ Customize reports by adding, removing, or rearranging columns or applying sorts
- ◆ Filter reports for specific data
- ◆ Create and save report templates for periodic or frequent use
- ◆ Schedule automatic report generation and email delivery for any standard or saved report templates
- ◆ Export report data for use in other programs

Supplemental Modules & Programs

Additional modules and programs are available to meet the needs of your library:

- ◆ Acquisitions – create, budget, and manage orders
- ◆ Authority – import and manage author and subject authority records
- ◆ Bookings – reserve materials in advance for a future date or range of dates
- ◆ Debt Management - streamlines the process of collections and referring delinquent patrons to a collection agency
- ◆ eZcat Pro – enhanced MARC catalog tool
- ◆ Express Checkit – self check circulation interface
- ◆ Serials – manage print subscriptions
- ◆ APEX – Interlibrary Loan

Subscription Services

Service options available to enhance your online catalog:

- ◆ OPAC Snapshot Classic – book covers, table of contents, first chapters, reviews, etc.
- ◆ OPAC Snapshot Unbound – Premium book covers, summaries, about author, series information, you may also like, reader reviews, book display widgets and more
- ◆ SURFit – federated search option that streamlines access to your electronic resources
- ◆ Reading Program Enhancement - Accelerated Reader, Reading Counts!, Lexile, Fountas & Pinnell, etc.

Hardware / Software Requirements: Refer to the Atrium Technical FAQ’s and Atrium Hardware Requirements for specifications.
