ⒶtriuuM®
Integrated Library System

⚋triuum®

Feature-rich, stress-free technology for any library

Atriuum, our 100% web-based Integrated Library System, is built on a foundation of over 30 years experience in library technology and feedback from thousands of customers.

Atriuum's Core Product includes the following:

- Cataloging, Circulation, Inventory, and OPAC

- Quick Cataloging via Z39.50 Client

- Generate out-of-the-box library reports or build your own custom-tailored reports

- Create a custom online catalog interface

- Optional interactive Kids Catalog with genrefication

- Self-Service OPAC options allow patrons to manage renewals, reserves, watch lists, setup email/text message notifications, etc.

- Civic and social promotion of the library, groups, and local events can be publicized via the Community feature

- Integration of eBook and digital content, Social Media, and online payment of fines/fees

- Mobile Apps for Patrons and Library Staff

- Industry standard SIP2, NCIP, and Z39.50 protocols at no additional cost

- LDAP and Google Single Sign-On (SSO) at no additional cost

Information at Your Fingertips

Whether your patrons are searching the library catalog or library staff members are performing administrative tasks, access to Atriuum is fast and easy from any computer or mobile device with internet connectivity. Atriuum brings your library resources right to your fingertips.

Most importantly, Book Systems offers the best support in the industry.

"Patrons find Atriuum user-friendly as well and love how versatile it is in searching and managing their accounts."

Fay Nichols, Director
Gatesville Public Library
Gatesville, TX

Atriuum sets the standard with core library functions and great features for managing your collection, as well as giving your patrons access to the information they need. Below are just a few highlights that Atriuum has to offer.

Digital Content

eBooks & Audiobooks

Integrated eBook and Audiobook search options for Overdrive®, Axis 360™, Bibliotheca®, hoopla®, and many other digital content providers are included with Atriuum at no additional cost.

Reporting Capability

Powerful & Customizable

Atriuum enhances your reporting capabilities in as many ways as you can imagine:

- Easily generate out-of-the-box dynamic reports
- Custom tailor reports by adding, removing, or rearranging columns and/or applying sorts
- Filter reports for specific data
- Create and save report templates for periodic or frequent use
- Schedule automated report generation and email or FTP delivery for any standard or saved report template
- Export report data for use in other programs

Quick Cataloging

Instantly Search & Retrieve USMARC Records

Catalog with speed and efficiency with Atriuum's built-in Z39.50 client. Get instant access to over **20 million** free USMARC records from Library of Congress and other Z39.50 server databases.

Seamless Integration

Via SIP2, NCIP, and Z39.50 Protocols

Unlike other ILS vendors, Atriuum includes and supports the industry standard SIP2, NCIP, and Z39.50 protocols at no additional cost. These provide the ability for Atriuum to easily communicate with any RFID, Self-Check, Time/Print Management, or InterLibrary Loan (ILL) systems that require any of these standards.

OPAC

Customizable Interface

Captivate your patrons with our exciting OPAC interfaces! Choose from the clean modern look of Gallery or the customizable Canvas that has several layout options, numerous widgets and over 100 OPAC pre-designed themes. Enable your patrons to log in to their account to set up bookbags, access watch lists, reserve items, renew items, check their account status(es), review/rate items, etc.

Community

Civic and Social Promotion

The Community feature in Atriuum is designed to help you re-envision the library's role as a central public space; to bring patrons together to share knowledge and skills. Community posts can be used to promote/advertise groups, clubs, special events, workshops, and more.

Electronic Notifications

Keep Everyone Informed

Atriuum gives you the tools to effectively communicate with your patrons. Easily announce recent library acquisitions, "What's Hot," or library events. Automatically send email or text notifications for items out/overdue items, reserves "ready for pick up," personalized watch lists, and more. OPAC Widgets allow for promotion of events/activities, "What's Hot," "What's Coming," and "What's New", etc.

Single Sign-On (SSO)

LDAP and Google SSO Support

Atriuum supports both LDAP and Google SSO and is included at no additional cost. This provides the ability for patrons to log in to the OPAC using LDAP and Google SSO credentials without having to enter a separate username/barcode and password. Library workers will also be able to easily log in to the administrative side of Atriuum using LDAP authentication.

Library Kiosks / Lockers Support

Patron Self-Service Holds Pickup

Atriuum now supports the use of self-service kiosks or electronic lockers so patrons can pick up reserved items or holds at a remote or after hour pickup location. Kiosk/Locker locations can be assigned to manage reservations and notifications. Notification frequency can be set per Kiosk/Locker to allow additional lead time for areas where item delivery is less frequent.

Acquisitions

With today's limited library funding, it is important for libraries to maintain a detailed account of requests and expenditures. The Acquisitions Module for Atriuum will provide the management options you need in a user-friendly, intuitive interface.

- Allocate funds, manage, and track library budgets
- Create, review, consider, and approve patron/staff initiated requests
- Manage, process, and track purchases

Authority Control

Improve your cataloging accuracy using the Authority Control Module for Atriuum.

- Maintains and controls author/subject authority records
- Builds "See" and "See Also" cross-referencing
- Enables OPAC browse searching by author names and subjects

Serials

The Serials Module for Atriuum has the flexibility to easily manage and catalog your magazines, periodicals, journals, and other subscriptions. Librarians can easily:

- Create and modify subscription information
- Track and mark items received upon arrival
- Process claims
- Produce a variety of pre-configured or customized reports

Express CheckIt (Self-Check)

Give your patrons what they expect while improving your staff's circulation workflows.

- Easy to implement
- Intuitive user interface
- Improves circulation
- Simple and secure

Debt Management

Atriuum's Debt Management module provides an automatic system for referring delinquent patrons to a collection agency (e.g. Unique Management) so your library can recoup fines for late, damaged, or lost items as well as outstanding fees.

"Atriuum has fit our library's needs perfectly. It is dependable, low-maintenance, and the interface is simple enough for staff to use with ease. Tech support is always quick and responsive. Atriuum makes my life easier."

Ronnie Smith, Director
Eufaula Carnegie Library
Eufaula, AL

Mobile Apps

Access to Your Library On the GO

BSI Pay

Process electronic payments for patron fines/fees using a mobile device and effortlessly sync them with Atriuum. Works with PayPal and Square card readers.

Librista

Provides powerful, portable, and productive searching of your library's online Catalog, eBooks, and Community posts. It also supports patron account management.

Librista CheckIt

Gives your patrons a self-checkout option for borrowing items using their mobile device. Promotes social distancing and limits contact.

Atriuum Mobile Interface (AMI)

Designed for library staff to perform circulation transactions via a mobile devise.

Atriuum Inventory Resource

Allows library staff to scan or enter library barcodes into an existing inventory session for marking items seen.

Hosting Options

Atriuum®

Atriuum self-hosted is an on-premise solution designed for customers who prefer to have Atriuum installed and running on their internal network and server. BSI technicians remotely perform scheduled software updates. However, remote access to Atriuum, server updates, and backups are managed and maintained by your internal IT department.

Atriuum ASP™ Hosted

As an Application Service Provider (ASP) we deliver powerful and flexible technology that is entirely results-oriented. Along with expedited maintenance, we also perform daily database backups for safekeeping. When you factor in the price of purchasing a new server and hiring an IT person to maintain the server and perform updates, you'll immediately see the benefits of using our hosting options.

Backup Service

Security and Peace of Mind for Self-Hosted Customers

Protect your library's database from natural disasters, ransomware, and other unforeseen technical crises by subscribing to our Remote Backup Service (RBS). Your library's data will be automatically backed up and stored off site on a daily basis.

Subscribe and use Book Systems' RBS to recover your Self-Hosted Atriuum or Booktracks database should a disaster occur.

Remote Backup Service **RBS**™

SURFit

Dynamic Federated Searching Tool

A powerful Federated Search option for Atrium that allows patrons to simultaneously search the library collection in addition to content from free and paid online databases such as Britannica®, EBSCOhost®, Google Books, Gale, ProQuest®, World Book, and more.

- Provides patrons the confidence to conduct self-directed searches
- Increases usage of your OPAC and subscription databases
- Organizes searched results quickly and easily

"We found exactly what we were looking for in a library system when we signed with Book Systems."

Debra Lawson, Director
Spencer County Public Library
Taylorsville, KY

Project Management

Going Beyond to Ensure Your Success

Our customers are assigned a Project Manager (PM) who will be dedicated to your implementation. Your PM will work closely with you and your staff, guiding you through our step-by-step deployment process.

Once the data has been converted, reviewed, necessary changes made, and then approved by you, our deployment team springs into action. A certified BSI technician remotely manages your installation, making your system "live" and preparing the way for your training session.

Rest assured that your PM and our friendly support team are always available to assist you during and after your system deployment.

Implementation

A Commitment to Your Success

At Book Systems, our dedication to customers goes well beyond the software. We're committed to providing complete solutions and that starts with a successful implementation.

A Book Systems implementation consists of a three-step approach:

1. Data Services
2. System Deployment
3. Training

Once the data is ready and your system is deployed, a certified BSI trainer will spend time with you and your staff, covering all the basic functions of the system and making sure you and your patrons are ready to hit the ground running. At Book Systems, we are committed to making your experience with our systems and people a positive one!

Data Services

You Can Trust Our Expertise

When it comes to your data, we understand the importance of maintaining its integrity. With over 30 years of experience, you can trust our expertise when handling the migration of your patron and library records to Atrium.

Book Systems offers a variety of data services including:

- Electronic transfers from an existing ILS
- Authority services
- Brief to Full MARC enhancement services
- Full retrospective conversions

"Everyone that we have worked with at Book Systems was helpful and went out of their way. Our data was difficult but the transfer went great with only a few problems that were instantly resolved. After implementation, we needed some customized reports plus had a few issues that needed to be addressed and your tech support team never blinked. They just always had a solution!"

Onie Parker, Director
Franklin Parish Library
Winnsboro, LA

Training

Our #1 Goal is Ensuring Your Success

We offer a variety of training options to meet your needs. Our trainers are degreed librarians who are former customers that used Atriuum to manage their libraries. They provide innovative learning content that helps you work effectively and teaches you how to take advantage of Atriuum's functionality for the most efficient results.

In-House Training
Book Systems offers In-House training at our headquarters in Huntsville, Alabama. These two day sessions provide hands-on participation to all attendees.

On-Site Training
A BSI certified trainer will visit your library so you and your staff can learn to use our products within a familiar environment.

Online Training
Our online sessions are designed to deliver real-time, affordable training that can be focused on specific tasks such as inventory, custom reports, etc. Set up multiple training sessions at your convenience.

Refresher Training
Our focused follow-up training provides uniquely designed sessions to boost your staff's knowledge. Participants can acquire detailed information about product features or learn about the latest updates.

Customer Support Beyond Compare

Unparalleled Customer Support

We take great pride in our commitment to provide exemplary customer support. Our knowledgeable technicians are well trained to answer your questions and provide comprehensive solutions in a friendly and courteous manner, with southern hospitality, all from Huntsville, AL. When you call, you'll always be greeted by a live person -- real people on our customer support help desk are there to assist so that you have a satisfactory response every single time.

Our goal is to serve our customers and maintain our reputation for an unparalleled customer support experience.

Phone Support
Available Monday through Friday
7 AM – 7 PM Central Time
(888) 289-1216 (Toll Free)
(256) 533-9746

Remote Support
With your permission, our technician securely accesses your system to assist with resolving issues. Service available Monday-Friday, 7 AM – 5 PM Central Time.

Call Queue
Customers can opt to have a case created and be placed into a call queue until a technician becomes available. Our typical hold time is less than 5 minutes.

Live Chat
Maximize your time by multi-tasking while chatting online with our team. Service available Monday-Friday, 7 AM – 5 PM Central Time.

2-Hour Call Back
If all technicians are busy assisting others, a case will be created and a technician will contact you within 2 hours.

Free Updates / Enhancements
Customers with an active support contract receive free product updates and enhancements as they become available.

Email Support
Email your questions or issues to support@booksys.com and a technician will respond within 24 hours.
