

Booktracks® + PowerSchool

An Essential Combination for Your District

Booktracks and PowerSchool SIS API Integrations

Booktracks and PowerSchool's SIS provide your district with the most powerful, comprehensive solutions for managing your assets and student information.

Booktracks now supports secure student data integration with your PowerSchool SIS using the PowerSchool API*.

* Also available for Atrium (sold separately).

Discover how to automate and simplify importing student data into Booktracks

How does it work?

School Conversions Map

Data will only be imported from schools that have been mapped to Booktracks.

Imported Data	Result In Booktracks	Select All Deselect All Remove Selected
Main St. Elem	Main Street Elementary	Remove <input type="checkbox"/>
Maple Elem	Maple Elementary	Remove <input type="checkbox"/>
Oak Elem	Oak Elementary	Remove <input type="checkbox"/>

[Add New Row](#) | [Populate From PowerSchool](#) | [Save Rule](#) | [Go Back](#)

Easily maps and securely sends student data from PowerSchool to Booktrack's Patron Report Classes and other patron fields, which ensure accuracy and proper reporting.
